Who is Hope?

After more than twelve month's work by an advisory group, which included the development of foundational documents, a School Board was formed. The Board comprises representatives from Member Missions and other mission organizations.

The School Board governs the school, and develops and approves policies which ensure the provision of high quality Christian education for our children in an international setting. In order to ensure broad consultation, the Board takes recommendation from the Parent Council, Finance Committee, and other working committees as required.

The Preschool is just one of several new developments aimed at expanding the school to better serve the needs of the community.

# HOPE International Preschool Cambodia

LITTLE TREASURES

LITTLE CHILDREN

## At Hope...

At Hope, our aim is to create a place for children where they can run, play, explore, learn, and grow - physically, mentally and spiritually.

We are committed to valuing each child as unique, created specially with individual gifts, strengths, interests and needs.

As a Christian Preschool, we are committed to introducing the children in our care to their Creator's love, through our every day planning and actions.

We aim to foster wonder and amazement as children see the world about them, and learn to care for the environment and for nature.

We are committed to creating an atmosphere where children belong, and so are free to learn and grow, secure in the knowledge they are special, valued little people.

## About Us...

**Age** - At this time, Hope Preschool caters specifically for three and four year old children.

**Curriculum** - Based on international models, the curriculum recognizes the challenges of teaching and learning in a multicultural setting.

**Daily Program** - the daily program provides a mixture of free play, planned activities and whole group activities. Built into the program is a period of rest for all the children attending.

**Staff** - All Hope staff are managed by professional, Christian teachers. Their values and practices are consistent with the Christian faith.

**Flexibility** - Realizing that flexibility is important for those living and working in Cambodia, children can be enrolled full time or part time.
